Preprocessing applied to the data included in the "1000 Functional Connectomes Project" release.

1. All datasets were oriented to RPI.

2. Anatomical data
   - mprage_anonymized.nii.gz: defaced using defacer from BRIN http://www.birncommunity.org/tools-catalog/defacer-for-structural-mri/

   - mprage_skullstripped.nii.gz: non-defaced, skull-stripped using 3DSkullStrip from AFNI

3. Functional data
   - rest.nii.gz: The first 5 timepoints of each timeseries were discarded.
